

GuestCast

an entertainment solution by Hotel Internet Services

72% OF GUESTS

are interested in being able to access personal streaming subscriptions such as Netflix, Hulu, Disney+ on their Guestroom TVs

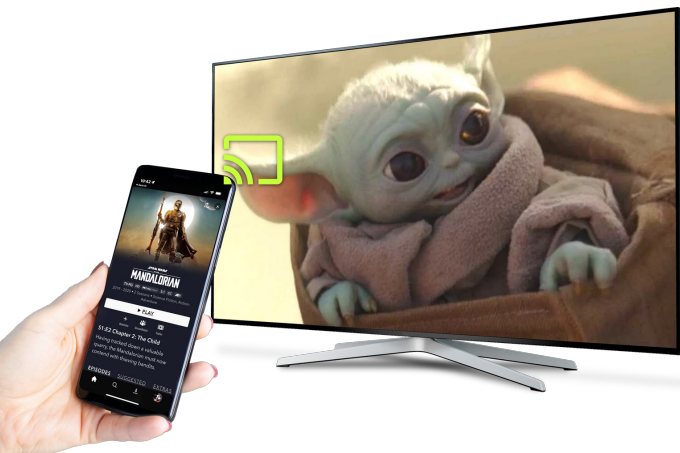

With GuestCast, provide your guests with an affordable, standalone, casting solution that comes equipped with the latest in in-room entertainment technology. Engineered to work in all kinds of

environments, GuestCast by Hotel Internet Services ensures seamless and hassle-free access to personalized content on guestroom televisions while utilizing advanced security capabilities to always keep guest information and privacy safe.

Speed, reliability, and great security accessing their streaming platforms

We designed GuestCast® with device isolation so that there was no possibility of cross-room communication, where the guest was accidentally sending their content to the wrong room, or where someone with malicious intent could take over another's TV, yet that was quick and simple for guest to pair their devices with, and which we could install in virtually any hospitality network environment with minimal requirement.

GuestCast special features:

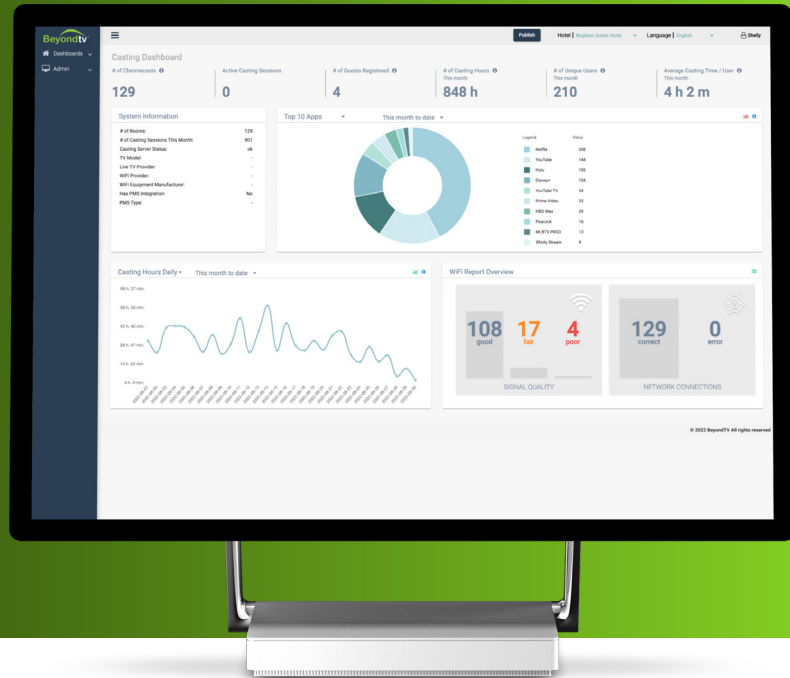

- Optional remote with button for TV and Casting
- Runs on virtually any network
- Installed quickly with minimal disruptions
- Device isolation to ensure guests only stream to their TV
- Works with almost any TV
- Securely mounted out of site

THOUSANDS OF POPULAR APPS AVAILABLE TO CAST FROM YOUR MOBILE DEVICES

GuestCast® is compatible with more than 2000 mobile-based streaming apps. Your guests can continue watching all their programs, shows and movies while they travel to your destination. Helping guests access their favorite content enhances their experience while they are staying with you.

With the new GuestCast Dashboard, hoteliers can now gain invaluable insight into the success and performance of their in-room entertainment strategy and online networks. From a single user-friendly interface, the GuestCast Dashboard provides real-time analytics into GuestCast use. Hoteliers can also monitor individual GuestCast device performance in order to identify and resolve any potential issues before guest experiences are affected. Hotels can even monitor Wi-Fi signal quality for each access point located within their property, ensuring that hoteliers can address concerns standing in the way of meeting guest online connectivity expectations

OPTIONAL REMOTE

Make casting even easier for your guests to access in their rooms with an optional remote. Here are just a few benefits:

Integrates Easily With Your Television Programming

Smooth Top-Case For Easy Cleaning By Spray Or Wipe-Down With Disinfectant Wipes

Lightweight, Durable, Intuitive Backlit Remote

Easily Switch From TV To Casting With Clear Button For Each

No Key Holes Prevents Battery Theft And Has Extra-Long Battery Life

“ I was instantly impressed by the simplicity and ease-of-use that BeyondTV GuestCast provides while still serving as an advanced platform that can fully address any guest entertainment preference...”
